About us

# Made in Aligarh since 1994

We make and export brass and wrought iron hardware from our factory in Talanagri, Aligarh.

Aligarh has been India's centre for locks and builders' hardware for more than a century, and the district our factory stands in is named for the trade: Talanagri means "lock town". The casting, filing and polishing skills our people use are the town's own.

Sanjeev Agarwal started Sameer Exports in 1994 under the direction of Er. S.P. Agarwal. Today a team of designers keeps the range evolving, and our buyers are importers, wholesalers and builders in the UK, the US, Mexico, Germany, Canada and Australia.

## How we make it

### Sand casting

Our own foundry casts solid parts in traditional sand moulds, which keeps fine detail on period designs.

### Forging

Modern forging machines press hot metal into dense, non-porous parts for pieces that take hard use.

### Finishing

Every piece is partly machined and partly handcrafted, then finished, polished and lacquered in-house.

### Packing

Orders are packed to international standards and to each buyer's own requirements.

## How to order

1. Note the codes, quantities and finish you need.
2. Send the list on WhatsApp, by email or with the quote form.
3. We reply with price, MOQ, packing and lead time. Samples on request.

WhatsApp **+91 98370 31885** Email **info@brass-builders.com** Quote form **brass-builders.com/contact**
